

Capital Vault Incorporated : Business Development Group : [Order_BDG_A+P]
Entrepreneur & Enterprise Account [BDG_A_EE] : [Order_BDG_A_EE]

Opportunity & Vision:

This account is for entrepreneurs, enterprises and people who like to make new friends, promote people, companies and products, save and make money, acquire products and services, while getting more comfortable in your new operating environment. It is focused on a few important areas of running a business. Our mission concerns the mutual benefit of entrepreneurs, enterprise members of CVI, your continued success and your ability to add value in your community and various industries is an essential part of nation building. This includes specific aspects and efforts directed to developing and optimizing opportunities, generating and benefiting from strategies, capabilities, joint ventures, co-development, business combinations and overall logistics in a productive and prosperous environment.

CVI members may work with CVI directly at the present level of development. The Business Options Agent, (CVI-Personnel Development Program) is a new aspect of operations and may take some time to establish, as this involves considerable knowledge of CVI-Options and the capacity to function as a consultant and deal making entity. Working at a personal private and professional level with others in your area may be an enjoyable and rewarding experience with long term relationships, growing opportunities, with a range of co-operative initiatives, endeavours, shared and expanded perspectives.

Our main focus concerning specific aspects and efforts that we would like to help with are:

- 1) Marketing and sales;
 - CVI-Options, joint ventures, prime and sub-contract opportunities;
 - Options & resources for strategies, capabilities and long term benefit;
 - Entrepreneur Optimization;
- 2) Buying group discounts;
 - Special orders, limited production or produce on demand, special promotions;
 - Strategies and resources for supplier credit, material acquisition accounts;
 - Surveys, pre-sale and end user logistics, inventive market and product promotion
- 3) Inventory or production options and resources;
 - Conditional acquisition and sales contracts, development and production;
 - Business Options, integrated business units, secure supply, infrastructure;
 - Logistics and enhanced product and service capabilities;
 - Enterprise Optimization
- 4) Forward Looking;
 - Vision, strategy development, resource acquisition, organization, mission tasking;
 - CVI-Options Optimization, timeline, general and advanced configurations;

Building on a secure and solid foundation by mutual agreement, consensus and action, that reduces expenses, expands business, creates, develops and maximizes markets and product development, promotes productive and prosperous relationships, transactions and enables continued investment in private Canadian companies.
