

Capital Vault Incorporated – Entrepreneur Infrastructure Group : [Order\_EIG]  
**Material Acquisition & Conversion Account** : [Order\_EIG\_A\_MAC]  
**MAC Account Portfolio Summary – page 1**

**Opportunity & Vision:**

- Raw and semi-processed material acquisition directed to downstream material processing for finished and almost finished goods.
- Optimize secure supply line, material acquisition and conversion opportunities, short, mid and long term business, seasonal, commercial and customer cycles.
- Maximize new and existing supplier producer logistics to end market.
- Inventory stockpiles for repeat orders, special and regular purchase orders.
- Maximize market trends, in stock, finished, near finished goods, custom mass production.
- Strategic capacity on tap for total economic vitality and benefit, while promoting long term mutually beneficial business relationships, transactions, integrated enterprise solutions.

**Explore & Discover:**

- Fixed and convertible value, fixed and variable compensation and terms up to 5 years, fixed and variable distribution frequency, plus exchange options and acquisition rights.
- Acquire finished or semi-finished goods of a particular industry, company or product.
- Secure a conversion premium derived from actual material acquisition and conversion. This provides higher short term returns with faster turnover generating excellent prospects and repeat business opportunities in similar and diverse industry sectors.
