

## Capital Vault Incorporated - EIG\_Accounts : Entrepreneur Infrastructure Group [CVI-EIG] : [Order\_EIG]

The Entrepreneur Infrastructure Group [Order\_EIG] is a solid, powerful and practical collection of financial enterprise tools and accounts to generate an incredible range of useful capabilities to securely enable various combinations to be possible in addition to what may already exist with current operations. Often times an entrepreneur or enterprise needs one or maybe several resources to add to existing competence, capabilities and capital that may vastly augment, increase and amplify wealth producing power and greatly facilitate in everyday operations. These accounts are dedicated to major concerns, requirements and ideals to secure greater long term confident business decisions, optimized asset and resource planning and management, greater productivity, profitability, opportunity for all members at various levels of participation, over a compressed or expanded timeline.

**The Entrepreneur Infrastructure Unified Account, 1);** provides a convenient way to participate in all EIG Account Portfolios, without the normally required account minimums to be established. With the Unified Portfolio Options, a member may choose to secure advantage in a specific opportunity in accordance with the conditions of the portfolio. The MAX RSVP Options provides the major EIG MAX RSVP levels and the DA, ETM & MAC MAX RSVP levels of contributions, compensation for your response and interest, various levels of participation, investment and acquisition options, business options, special promotion, compensation and benefits within corresponding timelines. So, potentially, this account can help a great deal in providing easy pro-active self-directed options with a smooth, streamlined, solid, secure and competent way to get things done without missing out on anything, as the basic point is consensus and agreement with powerful options to choose from. Knowing what you want and when helps defines action plans easily with the time provisions for the Conversion Options. More examples may be provides, plus custom configured options that are good for one or many.

Member/co-trustees have definite strategic advantage with a personal and private business and financial transactions with built in asset protection for use in Canada. Together, being pro-active in utilizing the economic levers to create opportunity, companies, technology, products, services, jobs and careers, We reduce the export of money, capital, control, resources and market share, promoting industrial productivity, new wealth generation, greater stockpile and deployment of capital, secure supply lines and of course, ensuring that skilled, experienced and talented personnel have challenging and rewarding opportunity for personal and professional development now and long into the future. This is not an ideal or theory, it is a necessity that is important for our destiny and success in Canada.
